# anthology
ACADEMY

Where education and enhancement meet

Benefit from expert training and on-demand learning content to improve skills and ensure your team is getting the best Anthology experience possible. Leverage the Anthology Academy for end-user training and best practices across the spectrum of Anthology products, as well as for implementation support, product adoption, new employee onboarding, performance support, and career development for faculty and staff.

**Start a digital learning journey** that improves your team's product knowledge
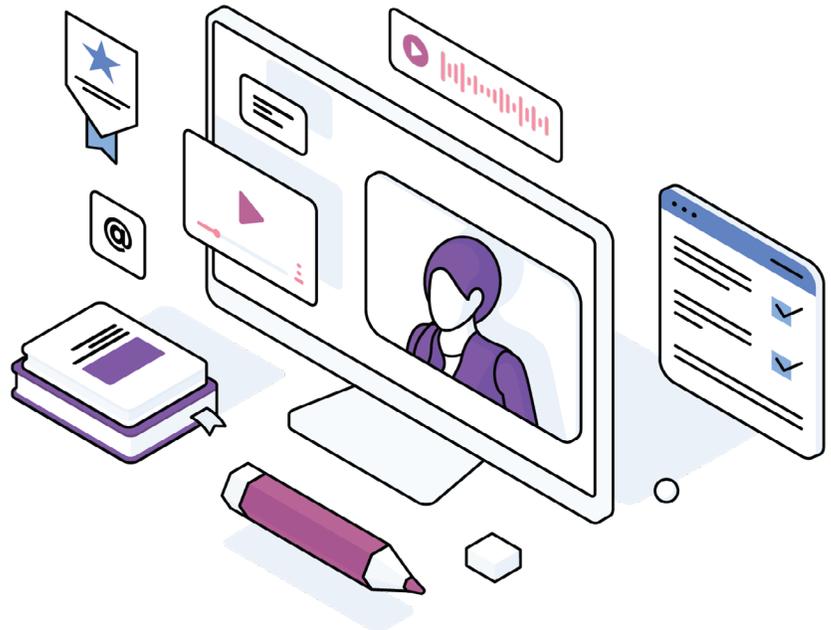

Access an ever-growing library of educational content

Bolster team efficiency and improve workflow through both instructor-led and on-demand training

Gain confidence (and time) with an improved product understanding

Choose the subscription tier that best meets your needs and get the best Anthology experience possible.

Essential

The Essential subscription is included with all Anthology products. You'll have access to self-paced, on-demand courses and administrator training at no extra cost.

Enhanced

The Enhanced subscription provides role-based, on-demand content sequenced into courses and learning plans for end users.

Enhanced Plus

The Enhanced Plus subscription shifts the administrator and end-user learning opportunity from primarily on-demand content to multi-campus, instructor-led sessions. Subscribers at this level also benefit from additional learning platform functionality, such as customized learning plans and the ability to add institution-specific learning content.

Anthology Academy in Action

" The Academy makes us feel more connected to Anthology software and what it can do for us. So, it helps us see ourselves in that product and how we can manipulate our data to be more meaningful to our stakeholders."

Kristin Jette
ERP Systems Coordinator
