# Build courses.
Grow skills.
Achieve missions.

Our robust learning solutions empower government agencies to efficiently, easily, and securely support employees and stakeholders to meet diverse missions.

What we offer:

Meet your learners wherever they are. And in the ways that work best for them. With **Blackboard® Learn**, training content and courses are accessible from anywhere and at any time. Make training efficient and keep employees and stakeholders engaged with this powerful government Learning Management System (LMS). Easily and confidently build courses with a solution that seamlessly integrates with your agency HR software.

Want to manage the full lifecycle of learning information and assess learning outcomes in meaningful ways? Our comprehensive **Registration and Management** for Blackboard Learn solution handles course registrations, reporting, e-commerce, and user & data management and is fully integrated with the learning management system.

Greater access for all means greater success for all. **Anthology® Ally** is fully integrated into the learning management system and ensures that course content and information are accessible to all learners. With the press of a button, access is simple, seamless, and straightforward, including translations into 100+ languages, conversion from written to audio format, and more.

Launching a new online education or learning program? Growing an existing one? Our **Implementation and Strategic Consulting** services support you with the technology, expertise, and training you need to succeed.

Advancing Knowledge

Security & Certifications

We are committed to providing you with secure learning solutions. The U.S. federal government has awarded FedRAMP® moderate SaaS authorization to Blackboard Learn on Amazon Web Services (AWS) GovCloud. We are the only LMS provider to hold the AWS Government certification and StateRAMP authorization.

Government Channel Partners

We work together with our partners to ensure you're getting all the tools necessary to be more productive, efficient, and better trained in today's ever-changing information environment.

Government Contracts

Our software and services are available directly and through our partners on a myriad of flexible contract vehicles, providing easy access to the learning tools and support your agency needs.

> With Blackboard Learn, it's in a secure government cloud, so you can use your phone. You can use a personal computer. You don't have to be on a government-issued computer. So, there are multiple ways to get on. You can go down to the library if you want to and get on and take the class."
